I. SOPHIA UNIVERSITY

Sophia University was founded in 1913 by the Jesuits, a Catholic order renowned for excellence in education. From the beginning, the university founders stressed an internationally oriented curriculum and rigorous training in foreign languages. Sophia soon established itself as a leading institution for scholarship on foreign languages and literature in Japan. Today Sophia University is a major teaching and research university in the humanities and social sciences with 13,800 students, and teaching staff of 1,400 encompassing dozens of nationalities. Graduate education at Sophia has been recognized for excellence by the Ministry of Education, Culture, Sports, Science and Technology - Japan (MEXT) through Center of Excellence and Attractive Graduate Education awards.

II. GRADUATE PROGRAM IN GLOBAL STUDIES OVERVIEW

The GPGS, founded in April 2006 (formerly the Graduate Program in Comparative Culture from 1979 to 2005), builds on Sophia's traditional strengths in area studies to study globalization. It emphasizes inquiry into the contemporary world and its historical antecedents through a curriculum that combines the themes of interdisciplinary global studies, theories and methodologies of academic disciplines, and the language training and cross-cultural understandings of Japanese and area studies.

The approximately 30 faculty members in the GPGS have advanced degrees from leading universities around the world and are actively engaged in research and publication in their specializations. They represent many different disciplines, nationalities and cultural backgrounds, ensuring a diverse range of perspectives. A number of professors from other graduate programs in the university are also affiliated with the GPGS.

Every semester up to 15 applicants are admitted to pursue the M.A. degree, as well as up to three Ph.D. candidates. The size of the program is kept small to encourage close student-faculty interaction. Graduate students have access to the university's research facilities, while the location in central Tokyo provides easy access to such nearby resources as the National Diet Library.

1. DEGREES

The GPGS offers five degrees that are accredited by the MEXT.

The M.A. in Global Studies (GS) emphasizes the study of global issues from social science perspectives, focusing on global-local, systemic, and transnational processes. The degree prepares students for research and teaching positions in academia and think tanks, international organizations, as well as entry into doctoral programs.

The M.A. in International Business and Development Studies (BD) emphasizes the acquisition of analytical skills to deal with a range of contemporary global business and development problems that focus on Japan and Asia. It prepares students for careers in business firms and development organizations with and international orientation.

The M.A. in Japanese Studies (JS) enables an interdisciplinary approach to the study of both historical and contemporary aspects of Japanese history, literature, religion, art history, society, and culture. It prepares students for further study and research in doctoral programs or in positions that place a premium on knowledge about Japan.

The Ph.D. in Global Studies (GS) is designed for the advanced study of specific regions and locales in the context of global processes. It prepares students for academic posts in university, international and global studies programs, as well as research positions in institutions requiring advanced analysis of countries and regions in a global context.

The Ph.D. in Japanese Studies (JS) is designed for the advanced study of Japan in a transnational, regional and global context. Research and writing agendas emphasize methods and concepts from the disciplines of art history, cultural anthropology, literature, history, and religion.

2. CATEGORIES OF STUDENTS

A. Degree Student

A degree student is one who is accepted as a candidate for a Master of Arts or Ph.D. degree from the GPGS. New students are admitted in both spring and autumn semesters.

B. Non-degree student

Non-degree students are those who enroll for one year to take courses and obtain credits but do not intend to earn a degree from the GPGS. This category includes graduate students who are pursuing a graduate degree at another university and wish to come to Japan either to do research for their thesis or undertake related course work. Any student who wishes to change from non-degree to degree status must reapply for admission.

Requirements for Maintaining Non-Degree Status

A non-degree student must register for the equivalent of at least 10 hours of instruction per week. If the student does not register for a sufficient number of courses or fails to meet the deadline for the payment of tuition and fees, he/she will lose student status at the university.

Note: There is a chance that those who have attended a school in Japan before with a status of "auditor" or "non-degree" might not be able to obtain the same type of visa again under the policy of the Japanese Immigration Bureau.

C. Non-matriculated student (科目等履修生自由履修コース)

Non-matriculated students are persons of any nationality who wish to take one or more courses of their choice, up to 10 credits in one year, but do not intend to earn a degree from the GPGS. In order to be eligible for this status, the student must have already completed an undergraduate degree and hold a valid status of residence in Japan. For further information, please refer to: <https://piloti.sophia.ac.jp/eng/academic/non-matriculated/non-matriculated-info/>

3. RESIDENCE

According to MEXT regulations, the standard residence requirement is two full academic years for the M.A. degree, with the possibility of early graduation and three full academic years for the Ph.D. degree. The maximum time allowed to complete all the requirements is four full academic years for the M.A. degrees and five full academic years for the Ph.D. degree, excluding time spent on leave of absence from the university.

4. CURRICULUM
