Every effort is made to ensure the accuracy of the information contained herein. However, subsequent to the date of publication, unavoidable circumstances may result in changes in this document. The university reserves the right to make all such changes, including those in the program of study, courses of instruction, fees, and officers of administration and instruction, without notice.

I. SOPHIA UNIVERSITY

Sophia University was founded in 1913 by the Jesuits, a Catholic order renowned for excellence in education. From the beginning, the university founders stressed an internationally oriented curriculum and rigorous training in foreign languages. Today, Sophia University is a major teaching and research university in arts and sciences with students, and faculty members encompassing dozens of nationalities. Graduate education at Sophia has been recognized for excellence by the Ministry of Education, Culture, Sports, Science and Technology - Japan (MEXT) through Center of Excellence and Attractive Graduate Education awards.

II. GRADUATE PROGRAM IN SCIENCE AND TECHNOLOGY (GPST)

Our graduate program was established in 1966 to provide advanced professional education for students in science and engineering. Since then, it has developed into one of the major science and engineering programs in Japan, with numerous active and well-funded research projects. We address both the quest to understand the basic working of nature and the desire to put this understanding to practical use. Another important objective is to educate scientists and engineers with a broad perspective, capable of working in the international arena. The program consists of nine divisions, including the Green Science and Engineering Division.

1. DIVISIONS

The graduate program consists of the following nine divisions.

- 1) Mechanical Engineering
- 2) Electrical and Electronics Engineering
- 3) Applied Chemistry
- 4) Chemistry
- 5) Mathematics
- 6) Physics
- 7) Biological Science
- 8) Information Science
- 9) Green Science and Engineering

2. GREEN SCIENCE AND ENGINEERING DIVISION

The Green Science and Engineering Division was established in September 2013. It occupies a special position among the nine divisions. First, the entire educational program, including lectures and research guidance, is conducted in English. In addition, emphasis is given to environment and sustainability-related studies, which are vital to the future of mankind. To foster cross-disciplinary education, faculty members from the other eight divisions will be involved in teaching and research guidance. At the same time, by joining the research group of the faculty member of their choice, students can receive research guidance and pursue advanced education for thesis research.

3. DEGREES

The following degrees will be awarded after the completion of each program. They are all accredited by the Japanese Ministry of Education, Culture, Sports, Science, and Technology (MEXT).

- Master of Science in Green Science and Engineering
- Doctor of Philosophy in Green Science and Engineering

4. RESIDENCE

As determined by MEXT, the standard residence requirement is two full academic years (four semesters) for the M.S. degree, with the possibility of early graduation. For the Ph.D. degree the requirement is three full academic years (six semesters). The maximum time allowed to complete all the requirements for the M.S. degree is four full academic years and for Ph.D. degree is five full academic years, excluding the period of time spent on leave of absence from the university.

5. TRANSFER OF CREDIT FROM OTHER UNIVERSITIES

The GPST can accept up to 10 credits transferred from a M.S. student's previous work as a graduate student. Transfer of such credits must be approved by the GPST faculty.

III. APPLICATION AND ADMISSION PROCEDURE

1. ELIGIBILITY

M.S.

Applicants who meet one or more of the following criteria may apply for entrance to the GPST:

- (1) Those who have graduated, or are expected to graduate Japanese universities.
- (2) Those who have completed, or are expected to complete, 16 years or more of formal education in foreign countries.
- (3) Those who have been recognized individually by Sophia University as having qualifications equivalent to (1) or (2) and will reach the age of 22 at the time of entrance to Sophia University.
- (4) Those who hold a bachelor's degree or an equivalent awarded by a foreign educational institution which requires three years or more for graduation.
- (5) Those who have been recognized by Sophia University as having qualifications equivalent to (1), (2), or (3) and will reach the age of 22 at the time of entrance to Sophia University.

Applicants must hold a Bachelor's degree or equivalent before entering the master's program. Those holding an undergraduate degree other than a Bachelor's degree should inquire at the Sophia Admissions Office in advance.

Ph.D.

Applicants must have, or be expected to obtain Master's degree based upon a distinguished record of academic achievement. Applicants must hold a Master's degree before entering the doctoral program.

2. MAXIMUM NUMBER OF STUDENTS ADMITTED

M.S. : 20 students

Ph.D. : 3 students

3. APPLICATION PROCEDURE

Application is accepted through the following steps. **Make sure to complete each step.**

A. Contact a prospective supervisor

M.S.

Prospective candidates must indicate the name of three faculty members as his/her desired academic supervisor, contact at least one potential supervisor before submitting their application and choose his/her intended area of study in their statement of purpose. Information about the disciplinary specialties and research interests of faculty members are available on the following websites.

Graduate Program in Science and Technology website: <https://fst.sophia.ac.jp/en/>

List of Thesis Advisors: www.sophia.ac.jp/eng/admissions/graduate_p/english_g2/gpst.html

Ph.D.

Prospective candidates must contact a potential dissertation supervisor before submitting their application and choose his/her intended area of study in their statement of purpose. Information about the disciplinary specialties and research interests of faculty members are available on the following websites.

VII. OTHER INFORMATION

1. NATIONAL HEALTH INSURANCE

International students who will stay in Japan for more than three months are required to join this insurance system. The procedures are carried out at the local ward/city office. The premium must be paid, but by declaring you have no income, it will be reduced. Please ask directly about the details at the local ward/city office.

Subscribers to the National Health Insurance system have only to bear 30% of medical expenses for any treatment covered by the insurance at clinics or hospitals (expenses for medical treatment not covered by the insurance must be paid in full).

2. PERSONAL ACCIDENT INSURANCE FOR STUDENTS PURSUING EDUCATION AND RESEARCH

All degree students must be affiliated with this insurance plan. This will cover physical injuries a student suffers during educational and research activities at the university (during the regular curriculum, school events, extracurricular activities reported to the university, and while the insured is within the school facilities for reasons other than the above-mentioned) and during commuting to school.

3. REFUND OF THE APPLICATION FEE

If you meet any of the conditions listed under "1. Reasons for Refund of Application Fee" and submit the request for refund of application fee within the specified period, the application fee will be refunded to your designated account (the online payment handling fee of 1,100 yen is not refundable).

Refund requests made after the request for refund of application fee submission deadline will NOT be accepted. Please note that it may take about 1 to 2 months for the refund to be processed after the request is received.

1. Reasons for Refund of Application Fee

- (1) The application fee was paid, but the application documents were not submitted via the [application documents upload website](#).

(2) The application fee was paid and the application documents were submitted, but the application was not accepted due to lack of eligibility to apply. (In this case, the Admissions Office will notify applicants via email.)

※Cancellation of the application due to personal reasons after submitting the application documents is not allowed.

2. How to Obtain the Refund of Application Fee
